Building Bridges in Burnley is a partnership of faith organisations who are working with others to celebrate diversity, to promote dialogue and activities to develop understanding, to achieve equality and justice. The organisation advocates diversity and aims to promote social cohesion through interfaith activities. It was initiated through discussions between the Bishop of Burnley and other clergy and Muslim community representatives in the locality of the disturbances, specifically to assess the situation and explore ways in which to mitigate the existing, and prevent future, inter-community problems. Initial informal meetings eventually culminated in the formation of BBB as a registered charity in 2002. Since then it has become a Company Limited by Guarantee, incorporating the Bridge Project for young people, which was established at approximately the same time as BBB in a local parish church.

The Faith Centre is within Thomas Whitam Sixth Form Centre. BB10 1JD
